Who We Are: Brevard Cultural Alliance (BCA) is the professional organization representing the arts and cultural sector of Florida’s Space Coast.

Our three strategic priorities:

**Empowering Through Education**

**Developing Cultural Destination**

**Building Sector Sustainability**

What We Do in Education:

**BCA CHANNELS** existing cultural resources into innovative educational programming serving K-12 students across the Space Coast, both during and after school hours.

**INTEGRATE** the arts into graded curriculum to enhance the educational experience. This is facilitated by professional, teaching artists that participate in BCA’s artist residency programs and achieved through a project-based, cross-curricular approach.

**PARTNER** with Brevard Public Schools (BPS) and other community organizations to ensure BCA initiatives align with County curriculum and BPS Strategic Goals.

**INSPIRE** students to engage in science, technology, engineering and math (STEM) studies in new and creative ways that transform STEM into STEAM, with an “A” for arts integration.

**INNOVATE** through exciting, educational experiences that provide 21st Century skills, such as the “Telling Your Story” high school student video documentary project—recognized and supported by the National Endowment for the Arts.

BCA Education Quick Facts*:

About 4,000 Brevard County students directly served

Providing arts education experiences for 30 schools
